# WHO ARE WE???

Indian National Organization for Humans Rights Protection (INOHRP) is admired for its esteemed service to the society of India. Since 2004, we have been reaching out and assisting the deprived section of society throughout the country. The venture with highly qualified and goal-oriented members has altered many lives in the society since the last years of service. Our mission is to take effort and envision the welfare of the citizens of our country in all terms. Establishing New Delhi as its headquarter , the organization has stretched its chapters across the country and is governed by the Acting President Dr. Pradeep Chauhan.

# INITIATIVES:

INOHRP has rendered some initiatives for human rights in the country. The initiatives have deeply influenced and transformed many destitute lives.

Inspired from the words of Jawaharlal Nehru, "the children of today will make the India of tomorrow", INOHRP has come forward with an initiative "Student Future Conservation Programme" for the fortune of the children. The programme focuses on access to the right education and conserving the future of children and youth across the country. As part of the initiative, INOHRP is organizing awareness programmes across the country. Student Future Conservation Programme is a CSR initiative which appreciates the contributions to create impacts in the society.

# AIM:

Empowering the society on the right education

# Right to live

A man without education is like a building without a foundation. You can't mold your dreams without education. If you realize your potential and interest, choosing the appropriate educational course would lead you to a bright future. This initiative discovers your passion for education and nurtures your destiny. Quoting Mahatma Gandhi's phrase "the future depends on what we do in the present", we are very concerned about preserving the environment. One random act in conserving nature could benefit our future generation. We are determined to change the plight of this planet.

The primary objective of the programme is to make the students aware of mutation regarding the employment and education sector which buffers the stewardship of the environment. The expo ensures a breakthrough for your future by different educational and motivational sessions. It takes them through a wide range of advancements in the technological field. The expo initiated by INOHRP is beneficial for the students, teachers, educational management, industrialists and other professionals. Awareness programmes on conserving and preserving nature is also an advantage for the delegates. This innovative programme ranging to 2 days would be executed by the INOHRP officials.

# HIGHLIGHTS OF THE EXPO

Professional Orientation
